

Genealogy of Evert van Vledder part 1 (until 1800)

Introduction

The van Vledder history dates back to the early 16 hundreds. The graph below shows the big picture with the different branches of the family tree that are still alive and how they are related. This document covers the first 6 generations or roughly 200 years until the beginning of the 19th century (the dotted rectangle in the picture). Part 2 will start with Pieter, born in 1803. Part 3 will start with his brother Marten, born in 1812. You can download the other parts on www.vanvledder.nl/ourancestors

- I. **Evert** was born around 1625 in Vledder. We don't know very much about Evert and don't know his wife's name. Most likely he moved with his family to Amsterdam. New research suggests that they got four instead of two sons. We haven't found any records of daughters.

Children of Evert and his wife:

- II.1 Jochem Evertszn , born around 1645
- II.2 Gerbrant Evertszn, born in 1652
- II.3 Willem Evertszn, born in 1653
- II.4 Jan Evertszn, born around 1658

II.1 Jochem Evertszn van Vledder. Most likely Jochem was the first born and son and heir of Evert. Based on the age of his first son he must have been born around 1645. He married Neeltje Pieters and died in Amsterdam on 02-09-1673.
